

LASER CUTTING AND MILLING **Infos**

▶ Data on approval

PDF / DXF / Ai / EPS / CDR / SLDPRT /
SLDASM / SLDDRW / STL / IGES

▶ Data for transfer to CNC production
(for technical parts please send data
from CAD software)

▶ 2D data

DXF / EPS / Ai to Adobe Illustrator CC /
CDR to Corel X8

(with graphics formats always for PC with fonts converted into paths, vector data)

▶ 3D data

STL / SLDPRT / SLDASM

Content of data:

- only the part to be produced 1:1,
no lettering, dimensioning, external components or the like
- data may only have one layer
- bent components must be stored as flat projection
- axxo Design charges 60 € per hour for processing unclean data.

▶ Data transfer can be made up to 10 MB by email.
From 10 MB by FTP please call us.
